Okinawa	Okinawa main island	4 days in advance	5 days in advance	4 days in advance	5 days in advance

Note: The collection dates and reception dates in the table above are based on the departure date.

* As a rule service orders must be received by the day before articles are to be collected.

However, if no collection time is specified, the deadline is the morning of the day on which the articles are to be collected.

Ex.) The reception deadline for the Kanto area is the morning two days before departure.

* Road congestion is expected during the May, August, and New Year's holiday seasons, so dates may be adjusted accordingly.

* When snowfall is expected during the December to March period collection dates may be adjusted, or reservation reception may be suspended.

It may not be possible to make reservations for the above reception dates in some parts of Hokkaido and Yamaguchi Prefecture.

Customers in these areas desiring collection three days in advance are requested to contact us by telephone.
